ACM-4 and ACM-5 Cut Off Wheel Pricing

Prices in Effect 8/1/11 - Subject to Change Without Notice

ACM Products stocks four and five inch abrasive wheels in a variety of grits and thicknesses for cutting just about anything. We supply rubber and/or resin bonded wheels that utilize aluminum oxide and/or silicon carbide as the abrasive material. We also have metal-bonded diamond wheels for cutting glass, quartz, and other "hard" materials. Please see our [wheel selection guide](#) for help in selecting a wheel most suited for your cutting requirements.

Custom Wheel Sizing Available!

If you need a Cut Off Wheel smaller or larger than what we stock,
 please call **847-716-7369** for a custom quote.
